REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The amendment to the claim languages filed on 6/1/10 has overcome all the formal matter set for in the previous action. Regarding claims 1 and 72, the prior art fails to teach the claimed limitations of : "positioning a feedthrough member relative to an antenna template, wherein the feedthrough member is configured to provide an electrical connection through a wall of an implantable component implantable in the recipient along with the antenna; connecting a first portion of at least one electrically conducting wire to the feedthrough member; winding the at least one wire at least once around the antenna template; and connecting a second portion of the at least one wire to the feedthrough member", as set forth in each of the above claims. Further, regarding claim 76, the prior art fails to teach the claimed method step of:" removing the at least one wire from the antenna template after winding the at least one wire at least once around the antenna template" in combination w/ the rest of the limitations set forth in this claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
